Coastal Forests and Streams Water School

August 26-27, Pre-registration due by August 6
• Classroom Sessions • Field opportunities • Volunteer Expo •

What is Water School?

The Coastal Forests & Streams Water School; A training opportunity for Oregon Master Naturalist and Master Watershed Stewards, is a two day mini-college focused on coastal watershed, flora and fauna, and natural history topics.

Course and field topics will include:

- Coastal Forests, Natural and Human History, and Management
- Watershed Processes and Coastal Stream s
- Birding in the Coast Range
- Benthic Macroinvertebrates
- Wildlife of the Coast Range
- Plant Taxonomy, Trees to Leaf
- Invasive Species, Early Detection and Rapid Response
- Advanced Riparian Area Function
- Munsen Creek Stream Restoration

Who should Attend?

Individuals seeking Master Watershed Stewards and/or Oregon Master of Naturalist Certification, Natural Resource Professionals, and any other interested individuals including Formal and Informal Educators, and Interested Citizens.

Benefits of Attending?

By attending we hope you will understand the concept of watershed and human activities that have affected coastal forests and streams

Training credit:

- Oregon Master Naturalist
Unit 3 of Coastal Master Naturalist
- Master Watershed Steward
14 hours of training, 2 core modules
- Continuing Education Units through Oregon Open Campus
